

SEALING your safe room
to prevent CHEMICAL VAPORS
from entering your home –

It is a very natural instinct for parents to want to go to the school to pick up their children.

The very act of trying to protect your children may very well expose them to the dangers that the **SHELTER IN PLACE** is protecting them from.

The Lac du Bonnet schools have drills in place that will keep your children safe.

Call the School

DO NOT GO TO THE SCHOOL and attempt to pick up your children while the situation remains a threat.

Connect By all-net Communication Automation

The **CONNECT** notification system is a service provided by the RM and Town of Lac du Bonnet to share information with residents.

Once you have registered for the notifications, you will receive:

- Non-emergency information like road closures, updated landfill hours and important municipal issues;
- EMERGENCY information like FIRE BANS, EVACUATIONS and events that could impact the safety and security residents or cause damage to personal property.

The system makes notifications by phone, cell phone, text message and email messages.

**To register contact the
RM or Town office or email your
contact information to
connect@lacdubonnet.com**

Shelter in Place

The **Emergency Management Program** provides information for residents to help them prepared for situations that may cause damage to property or threaten the lives and well being of residents on a variety of topics including:

- Emergency Preparedness i.e. flood / utility disruption / storm event - snow, rain, ice, wind
- Shelter in Place
- Fire Smart
- Rural Crime Watch

*If you and your neighbours would like to arrange
for an information session
contact the Emergency Coordinator.*
